UM6P Executive Education Science and Technology

Executive Education Science & Technology

The Executive Education Science & Technology (Exed S&T) supports executive leaders in Morocco and Africa in their development goals through diverse training programs led by recognized experts. Focused on science and technology domains such as digital, sustainable development, mining, renewable energy, Industry 4.0, and more, these courses enable participants to gain advanced knowledge and develop unique expertise in the market. This is achieved through a favorable, flexible, creative, and stimulating learning environment that encourages practical application through business cases. Centered around science and technology, these programs align with UM6P's pedagogical project, bringing it closer to the realities of professionals. They also rely on high-quality multidisciplinary scientific research.

An Ecosystem for Research, Innovation, and Real-Scale experimentation

Program

Nowadays, businesses and people are evolving in more and more Volatility, Uncertainty, Complexity and Ambiguity: a VUCA World. We are facing climate change, biodiversity decline, scarcity of resources, challenges of employee retention, new ways of working like remote work, occupational work conditions and we have been recently and still are dealing with challenges of pandemics ... etc.

All these issues and challenges are significantly shaping us as industries, businesses, organizations, and people. Without acquiring the right knowledge and tools, without adopting new strategies and conducting deep transformations, we will face important risks and rapidly may lose competitiveness.

At the Executive Education of the UM6P, we've developed the Executive Master's in HSE & WellBeing Management to help industries, businesses and organizations overcome these issues and challenges, with the following objectives of:

Fostering HSE & Wellbeing culture.

Reinforcing managerial capabilities.

Promoting HSE&WB expertise and practical tools.

Acquiring thorough knowledge in HSE&WB fields.

Building network and HSE & Wellbeing communities of practices ...

Program

This Executive Master's in HSE & Wellbeing Management relies on sound knowledge and latest best practices from world class HSE & Wellbeing institutions. It is a great Opportunity for Managers to acquire and build world-class capabilities in HSE & Wellbeing to better manage and succeed in their responsibilities.

We humbly aim to contribute to the global vision of Sustainable Growth for Everyone through Empowering Strong HSE & Wellbeing Culture and Expertise.

The cultural shift toward HSE & Wellbeing ambition, needs organizations to combine continuous efforts through top-down, bottom-up and cross-stakeholders' approaches. Our Executive Master's in HSE & Wellbeing Management, targeting managers, allows them to succeed in strategizing, organizing, and implementing operating models that achieve HSE & Wellbeing goals of organizations, hence societies, through orchestration of bottom-up initiatives, facilitating new ways of collaboration and leveraging collective intelligence.
